PROFILE SUMMARY

Full-Stack & Mobile Developer with 2+ years of software engineering experience building enterprise web systems and production mobile apps. Skilled in ASP.NET Core (.NET 10), EF Core, SQL Server, and React 19/TypeScript (Arabic RTL, RBAC, automated testing), alongside deep expertise in Flutter (Clean Architecture, Cubit/BLoC).

TECHNICAL SKILLS

Backend: ASP.NET Core (.NET 10), C#, EF Core, SQL Server, REST APIs, JWT & Refresh Tokens, RBAC (permission-based access control), Serilog, RFC 7807, IIS
Frontend: React 19, TypeScript, Vite, TanStack Query, React Router, Ant Design, Axios, Arabic RTL UI
Mobile: Flutter, Dart, Cubit/BLoC, GetX, Clean Architecture, Dio, GoRouter, Freezed, fpdart, Firebase (FCM), SQLite, WebSockets (Laravel Reverb)
Testing & Tools: xUnit, Vitest, React Testing Library, Unit/Bloc Testing (bloc_test, mocktail), Git, GitHub Actions (CI), Docker, Postman

EXPERIENCE

Software Engineering Intern (Full Stack) | 88ninety Jun 2026 – Aug 2026 | Part-time, Hybrid/On-site, Damascus
Al-Tal Hospital Storage Management | [Case Study] [GitHub] [Demo Video]

- Collaborated in a 10-person team to deliver an on-premises hospital warehouse system on IIS using ASP.NET Core (.NET 10), EF Core, SQL Server, and an Arabic RTL React 19/TypeScript SPA with zero cloud runtime dependencies.
- Developed ASP.NET Core / EF Core API endpoints for warehouse receiving, internal requests, and digitally signed deliveries supporting FEFO expiry-aware batch tracking.
- Built the React 19 materials catalog, create/edit flows, and storekeeper dashboard (TanStack Query, Ant Design), enforcing live permission keys (`perm: <key>`) across assigned UI routes and API endpoints.
- Wrote xUnit tests for assigned API endpoints and screen-level tests within the team's 85-file Vitest and React Testing Library frontend suite.

Flutter Developer | ecoZone Apr 2026 – Oct 2026 | Part-time, Remote

- Shipped production features within a reviewed team codebase for a multi-role marketplace app (buyers, sellers, service providers, guests) spanning 33 feature modules and 95+ screens on feature-first Clean Architecture and Cubit/BLoC.
- Delivered end-to-end commerce flows across catalog and variants, cart, coupon-aware checkout, orders, inventory, seller promotions, in-app wallet (deposit, withdraw), and loyalty (points, vouchers, rewards, referrals).
- Implemented realtime chat features (text, media, voice, video, reactions, read receipts) over Laravel Reverb WebSockets with Firebase push notifications.
- Localized the application in Arabic and English (1,300+ strings) with RTL/LTR layouts and light/dark themes, contributing to a 27-file unit/bloc test suite covering cart, chat, loyalty, disputes, and coupons.

Freelance Flutter Developer | Client Projects | 2024 – 2026

- Built **Qeyadah** (driving school) as sole Flutter developer: bilingual app with booking, Sham Cash deposits, and FCM; Cubit, Freezed, fpdart, 130+ unit/bloc tests, GitHub Actions CI | [Case Study] [GitHub] [Demo Video]
- Built **Mawaqef** (smart parking) solo: bilingual driver/owner app with BLoC, Dio, OpenStreetMap, payments, owner approval gate, HTTP 409 recovery | [Case Study] [GitHub] [Demo Video]

University Team Project | Damascus University 2025

- Healthcare app (**Shifaa**), co-developed: booking and rescheduling with availability checks and RSA/AES-GCM encrypted chat; owned auth, booking, and chat UI | [Case Study] [GitHub] [Demo Video]

EDUCATION & ADDITIONAL

Education: Damascus University - B.Sc. in Information Technology Engineering, Software Engineering
Certification: Flutter Training, OUSOS (100%) [Certificate] | **Languages:** Arabic (Native), English (Proficient)
Volunteering: Contest operations team, DCPC/SCPC/SYPU (2025–26) | Course Team Leader & Board Member, RBCs (2023–26)
